OutgridLabs

Sales Playbook · v2 · the only sales document

From first message to advance in the bank.

How we qualify, run the discovery call, show the branded demo, walk the proposal, close, and collect. Every script, question and objection in one place, with drills and pass marks so you can train before real calls.

Sprint: 12 Nov – 1 Dec 2026 · Internal target: first advance by 25 Nov

Internal · Outgrid Labs, Baner, Pune

CONTENTS

Seven steps, one page each.

1

Section · The deal cycle and your day

What it gives you · The 7–10 day path to an advance, the daily routine, the nightly report.

2

Section · Qualify in two messages

What it gives you · The five checks, green and red flags, the reply bank (S1, S2 and six more).

3

Section · Get conversations

What it gives you · Outbound scripts S3–S5, walk-ins, and how to work featured founders.

4

Section · The discovery call

What it gives you · 30-minute structure, questions by segment, listening tools, payback maths.

5

Section · Demo and proposal walkthrough

What it gives you · The white-label base, the 2-minute video, the 15-minute walkthrough, the proposal.

6

Section · Close and collect

What it gives you · The ask (S6–S9), trades not discounts, 20 objections, the agreement and payment.

7

Section · Speak the owner's language

What it gives you · How each segment runs, where it leaks money, and Marathi owner vocabulary.

8

Section · Training and pass marks

What it gives you · Role-plays with the CEO, the 20-point scorecard, the daily 15-minute drill.

A

Section · Live deal: spare parts marketplace

What it gives you · Prep sheet, questions and scope plan for our top lead.

1 · THE DEAL CYCLE AND YOUR DAY

A short, tight cycle: 7–10 days from message to money.

Day 0

Step · Reply within 2 hours with the price range (S1). Score the five checks.

Day 1–2

Step · 30-minute discovery call: find the money leak, do the payback maths live, book the walkthrough.

Day 3–4

Step · Send the 2-minute branded demo video (S6), then the 15-minute walkthrough call.

Day 4–5

Step · Three options, the advance ask (S7), payment link and agreement the same day.

Day 5–10

Step · Follow-ups on day 2, 5 and 10 (S9). Slot booking (S8) for "later".

+24 hours

Step · Kickoff call, timeline shared, first weekly update date fixed.

Your day

9:30–10:30 inbound replies (S1/S2) + 10 S5 messages
10:30–1:00 build block: base, then branded demos
1:00–2:00 10 outbound (S3/S4) + follow-ups
3:30–6:30 calls and walk-ins
6:30–7:00 content, tracker, nightly report
Calls beat building. The remote job wins a real conflict.

Nightly report (copy)

1. Sent: S5 __ · outbound __ · follow-ups __
2. Replies __ (qualified 4–5 checks: __)
3. Calls booked __ · held __ · walk-ins __
4. Demos __ · proposals walked through __
5. ₹ collected __

Stuck on: __ · Tomorrow's top 3: __

Non-negotiables: no work before the advance · no build below ₹1L · no discount for the same scope · never send a proposal and wait: walk it live · every deal has a next step and date in `sales/tracker.csv` · launch dates carry two weeks of buffer · never talk down a competitor.

2 · QUALIFY IN TWO MESSAGES

Price in the first reply protects your time.

A 6.5 lakh audience sends many messages; few can pay ₹1.5 lakh. Say the range early. People who can't pay leave quietly; people who can feel respected.

Business

Passes when · Already operating, or a founder with capital set aside.

Ask · Business सध्या चालू आहे का?

Budget

Passes when · Doesn't run when they hear ₹1.5–3L.

Ask · असे projects ₹1.5–3 लाखांत होतात. चालेल का?

Pain

Passes when · Names a cost: commission, errors, lost orders, staff time.

Ask · सध्या सगळ्यात जास्त नुकसान कुठे होतंय?

Decision

Passes when · Decides alone, or brings the partner to the call.

Ask · निर्णय तुम्ही घेता की partner सोबत?

Timing

Passes when · Wants to start within 60 days.

Ask · कधीपर्यंत launch करायचं आहे?

4–5 checks: book the call today. **3:** one more WhatsApp exchange. **Under 3:** polite exit, broadcast list, no call time. Score every lead 0–5 in the tracker.

Green: move fast. Mentions outlets, staff, retailers or a monthly number · complains about commission, WhatsApp order chaos or unpaid credit · asks "how long?" before "how much?" · has GST, a website or a Google listing.

Red: exit politely. "Franchise", "how much can I earn?" · "app like Zomato for my village" with no business or capital · "free demo first" before saying anything · "equity instead of payment" · "₹20–30k for the full app".

Drill: score these five messages

1

Message · "आमचं Sangli मध्ये 3 outlets चं sweet shop आहे. Swiggy वर खूप commission जातं. Own app किती ला होईल?"

Answer · ~4 checks. S1, then a call today. Own Delivery App.

2

Message · "Bhau mala pan Blinkit sarkha app pahije maza gavat. Franchise milel ka?"

Answer · Under 3. S2, exit politely if no business or capital.

3

Message · "Pharma distributor in Nashik, 400 retailers. Salesmen take orders on phone, lots of mistakes. Can we talk this week?"

Answer · 5 checks. Call today, not tomorrow. Dealer Order App.

4

Message · "Price?"

Answer · Unknown. S1, and let their answer decide.

5

Message · "Startup karat aahe, investor shodhat aahe. App aadhi banvun dya, paise funding nantar."

Answer · Under 3. Equity reply, exit politely.

2 · QUALIFY (CONTINUED)

Reply bank: save these as WhatsApp Business quick replies.

Always add their name and one detail from their message, so it never feels copy-pasted.

S1 · Any inbound

नमस्कार! आम्ही businesses साठी delivery, ordering आणि marketplace apps बनवतो: customer app, rider app आणि admin panel. असे projects साधारण ₹1.5 ते 3 लाखांमध्ये होतात. तुमचा business कोणता आणि कोणत्या शहरात आहे?

We build delivery, ordering and marketplace apps for businesses. These projects usually land between ₹1.5 and 3 lakh. What's your business, and which city?

S2 · "Franchise?"

एक गोष्ट clear करतो: ही franchise नाही. App, brand आणि business पूर्णपणे तुमचा. आम्ही technology बनवतो, आणि projects ₹1.5 लाखांपासून सुरू होतात. Business आधीपासून चालू असेल किंवा गुंतवणुकीची तयारी असेल, तर नक्की बोलूया.

This isn't a franchise. The app, brand and business are fully yours; projects start at ₹1.5 lakh. If the business is running or capital is ready, let's talk.

"Ready-made app?"

Ready-made template आम्ही विकत नाही, कारण त्यात code आणि control तुमच्याकडे राहत नाही. आम्ही तुमच्या business साठी app बनवतो, आणि ते 100% तुमचं असतं. तुमचा business सध्या चालू आहे का?

"Free demo?"

नक्की. Demo आम्ही तुमच्याच नावाने आणि products ने बनवतो. त्यासाठी आधी 15 मिनिटांचा call करूया, म्हणजे demo तुमच्या business ला खरंच लागू पडेल. उद्या 4 वाजता चालेल का?

Only after 3+ checks: a branded demo costs you 3–4 hours.

Budget too low

खरं सांगतो: ₹__ मध्ये customer, rider आणि admin app असलेलं custom app शक्य नाही, आणि मी खोटं promise करणार नाही. पुढे budget तयार झाला की नक्की msg करा.

Idea stage, no capital

तुमची idea छान आहे, पण आत्ता ती सुरुवातीच्या टप्प्यात आहे असं वाटतं. Business plan आणि capital तयार झाले की नक्की बोलूया.

"Equity देतो"

Equity मी फक्त paid build सोबत घेतो, payment ऐवजी नाही. तुमचा विश्वास असेल तर ₹1.5L चा Launch tier हा कमी risk चा start आहे.

Voice notes: reply with a short Marathi voice note (under 40 seconds) and type the price line, so the number is in writing.

3 · GET CONVERSATIONS

Don't wait for reels alone. Four channels at once.

Featured founders

How · Everyone Tarun Udyojak featured in the last 12–18 months: revenue, trust, will take your call. 10 S5 messages a day. Ask each for a referral too.

Sprint target · 30 → 8 conversations → 2–3 qualified

Owner-focused content

How · Reels with a keyword CTA (see the Strategy + Content doc). Every comment or DM gets S1.

Sprint target · 40 enquiries → 5–7 qualified

Outbound

How · 10 a day: restaurants with 2+ outlets, distributors from IndiaMART/JustDial, tier-2 supermarkets. Personalise the first line.

Sprint target · 150 → 15 replies → 4–5 qualified

Walk-ins (Pune)

How · Two afternoons a week: wholesale and spare-parts shops, Market Yard. Learn first, pitch second.

Sprint target · 10 shops → 2 calls

S3 · Restaurant / sweet shop

नमस्कार __ सर, __ ला Zomato वर खूप छान reviews आहेत. एक प्रश्न: दर महिन्याला commission मध्ये साधारण किती जातात? आम्ही restaurants साठी त्यांचं स्वतःचं delivery app बनवतो, commission शिवाय. तुमच्या नावाने 2 मिनिटांचा demo बनवून पाठवू का?

S4 · Distributor / wholesaler

नमस्कार __ जी, तुमचे retailers orders WhatsApp किंवा फोनवर देतात का? आम्ही distributors साठी order app बनवतो: retailers स्वतः order देतात, credit limit आणि schemes आपोआप लागू होतात, आणि रोजचा sales report तुमच्या फोनवर येतो. 15 मिनिटं बोलूया का?

S5 · Featured founder

नमस्कार __, तरुण उद्योजक वर तुमची story share केली होती, आणि लोकांना ती खूप आवडली. आता मी Outgrid Labs मधून businesses साठी apps आणि automation बनवतो. तुमच्या business मध्ये orders, billing किंवा customers सांभाळताना सगळ्यात जास्त वेळ कुठे जातो? 15 मिनिटं बोललो तर एक-दोन ideas नक्की देईन.

Walk-in opener: "मी Baner मधून आलोय, distributors साठी ordering software बनवतो. विकायला नाही आलो, फक्त समजून घ्यायचंय: तुमच्याकडे orders कसे येतात?" Ask three things: how orders come in, how much credit is outstanding, what goes wrong most weeks. Note the exact words they use.

4 · THE DISCOVERY CALL

You're a doctor, not a salesman. 30 minutes, you talk 30%.

Open · 2 min

Goal · Agenda and permission to be honest.

Key line · "आज मी तुमचा business समजून घेईन, app मधून पैसे कुठे वाचतील ते दाखवेन, आणि गरज नसेल तर तसंही स्पष्ट सांगेन. चालेल?"

Today · 8 min

Goal · How the business actually runs.

Key line · "Walk me through yesterday: first order to last delivery."

The leak · 8 min

Goal · A cost in rupees, hours or customers.

Key line · "What does that cost you in a month?"

Payback · 5 min

Goal · Maths live, with their numbers.

Key line · "So about ₹__ a month is leaking. Let's see the payback."

Decision · 4 min

Goal · Budget, decision-maker, launch date.

Key line · "Who else decides? When do you want to launch?"

Next step · 3 min

Goal · Book the walkthrough before hanging up.

Key line · "48 hours for a demo with your brand on it. Thursday, 7 or 8 pm?"

Questions by segment (pick 6–8)

Distributor

Today · Retailers? How do they order? Orders/day? Tally, Busy or Marg?

The leak · Wrong or missed orders a week? Outstanding credit now? Staff hours typing orders? Do retailers know the schemes?

Restaurant

Today · Outlets? Aggregator orders a month? Average order value? Own delivery boys?

The leak · Commission + ads a month? Share of regulars? Festival days?

Supermarket

Today · Outlets? WhatsApp/phone orders already? Delivery radius?

The leak · Missed or wrong orders? Has quick commerce reached town? Top 200 families?

Marketplace founder

Today · Sellers and buyers spoken to? Capital and runway?

The leak · Why will sellers list with you? First month in one area? How do you earn?

Booking / services

Today · How are bookings taken? Providers? No-shows?

The leak · Enquiries that never book? Time on calls and reminders?

Four listening tools

Tell me more: "याबद्दल अजून सांगा." Use it on every complaint.
Mirror: repeat their last 2–3 words as a question.
Number it: "How many a week? What's one worth?"
Summarise: "So __, __ and __. Did I get that right?" The first yes of the sale.

Payback maths (use their numbers)

Restaurant: ₹4L/month on aggregators × ~25% ≈ ₹1L leaving. Move 30% of orders to own app ≈ ₹30k/month saved. ₹1.5L app ≈ 5 months payback.
Distributor: ₹50L/month sales; 3% more repeat orders ≈ ₹1.5L more sales; at ~10% margin ≈ ₹15k/month profit plus staff hours.
Round down. If payback is over 12 months, say so and suggest Launch.

Developer traps: explaining the tech stack · agreeing to every feature (ask "what does it save or earn?", park the rest for Phase 2) · filling silence · quoting a price to "close" the call. **After the call:** tracker updated, confirmation WhatsApp within an hour, self-score on the scorecard (section 8).

5 · DEMO AND PROPOSAL WALKTHROUGH

Show their app. Then walk the plan live.

We have no testimonials yet. The branded demo replaces them: once an owner sees their own name and products on a working app, the question becomes "when", not "whether".

The white-label base (build once)

- Customer/buyer app (PWA is fine for demos): browse, search, cart, pay screen, status.
- Admin panel: live order board, products, customers, daily sales.
- Rider or seller view: the order visibly travelling.
- Brand config: name, logo, colours, catalogue from CSV.
- Realistic seed data: Indian names, Pune/Nashik areas, real prices.
- Variants: distributor/marketplace first (serves spare parts and agri), then restaurant, then booking.

Branded demo checklist

- ☐ Only for 4–5 check leads with a walkthrough booked.
- ☐ Logo and 10–20 products from their Instagram, Google listing or catalogue.
- ☐ One feature that answers their leak (credit limits, no-commission checkout).
- ☐ Tested on a phone over mobile data.
- ☐ Under 4 hours. If longer, improve the base.

The 2-minute video, sent with S6

0:00–0:10

Their logo on the home screen: "__ ji, this is your app."

0:10–0:50

A customer orders and pays in four taps.

0:50–1:20

The order pops up on the admin board: "no WhatsApp scrolling".

1:20–1:45

Rider or seller accepts and delivers.

1:45–2:00

The fix for their leak, then "see you at [time]".

S6 · Sending the demo

__ जी, हा तुमच्या नावाने बनवलेला demo बघा (2 मिनिटं). उद्या 15 मिनिटांच्या call वर पूर्ण plan, timeline आणि खर्च दाखवतो. संध्याकाळी 7 की 8, कोणती वेळ चालेल?

The 15-minute walkthrough (share your screen)

0–2

Recap their goal and leak in their words.

2–5

Open the demo live; let them tap around.

5–9

Three options. Describe Scale first, then Growth, then Launch, and recommend one: "In your place I'd take Growth, because [their leak]." Show exclusions too.

9–11

Milestones with a demo at each; weekly WhatsApp video update.

11–13

Price, 40/30/30, care plan, risk reversal.

13–15

The ask (section 6). Then stop talking.

Proposal, 4 pages with their logo: goal + payback maths · 3–4 demo screens · three options with inclusions and

exclusions · timeline with milestones · price, 40/30/30, care plan · risk reversal · proof (European booking platform, loyalty SaaS) · valid 7 days + next start date. Template: `sales/spare-parts-proposal-draft.md`.

6 · CLOSE AND COLLECT

Ask for the money. Then stop talking.

First-time founders rarely lose on price; they lose by never clearly asking. The owner is leaking money every month. Asking them to start is helping them stop it.

STEP 1 · Choice

तुम्हाला कोणता option योग्य वाटतो: Launch की Growth?

STEP 2 · S7 · The ask

काम सुरू करण्यासाठी 40% advance, म्हणजे ₹__. मी महिन्याला फक्त 2 projects घेतो आणि पुढचा slot __ पासून आहे. Payment link आत्ताच पाठवतो; payment आलं की आजच agreement आणि kickoff ची तारीख पाठवतो.

STEP 3 · Silence Say nothing. The first person to speak after the price usually gives something away. Send the payment link while they're still on the call.

S8 · "Start later"

जानेवारीत सुरू करायचं असेल तर ₹25,000 देऊन slot आत्ताच book करू शकता. ही रक्कम advance मधून वजा होते, आणि आजची किंमत lock होते.

S9 · Follow-ups

Day 2: proposal बद्दल काही प्रश्न आहेत का? या आठवड्यात सुरू केलं तर __ पर्यंत launch होऊ शकतं. · Day 5: __ पासूनचा slot अजून मोकळा आहे. Hold करून ठेवू का? · Day 10: सध्या योग्य वेळ नसेल हे समजू शकतो. तयार असाल तेव्हा फक्त START लिहा.

Trade, never gift

Lower price

You can give · The Launch tier (less scope)

Only in return for · Nothing: it's a different product

5% off

You can give · 5% off

Only in return for · 100% upfront, or video testimonial + case study rights

Smaller advance

You can give · ₹25k slot booking now, rest before kickoff

Only in return for · Kickoff fixed within 2 weeks

Free extra feature

You can give · Phase 2 price written down now

Only in return for · Signing this week

Pay after delivery

You can give · Nothing: milestones protect both sides

Only in return for · —

Before your first walkthrough

☐ Bank account and UPI in the business name; a Razorpay link you can create in a minute.

☐ Invoice template (number, client, milestone, amount). Check GST with a CA; this is not tax advice.

☐ One-page agreement: scope and exclusions · 40/30/30 with what "done" means · change requests quoted first · code ownership on full payment, accounts in client's name from day one · 30-day fixes · third-party costs paid by client · launch date and client duties (approvals within 3 days).

Twenty objections. Answer each aloud in under 15 seconds.

Acknowledge, ask one question, answer only that. Never argue.

1

They say · "Too expensive."

You say · "Compared to the ₹__ a month going out today? It pays back in about __ months. For a smaller start, Launch covers the core."

2

They say · "Someone quoted ₹40–50k."

You say · "Ask them: rider and admin apps included? Who owns the code? Who fixes it on a Saturday night? If yes to all three, take their offer."

3

They say · "I'll think about it."

You say · "Of course. What's the one thing you're unsure about: price, plan or timing?"

4

They say · "Send details on WhatsApp."

You say · "I will. Can we take 10 minutes tomorrow so I can answer questions directly? 4 or 6 pm?"

5

They say · "Let me ask my partner/family."

You say · "Sure. Let's do 15 minutes with them tomorrow so they hear it first-hand."

6

They say · "My CA / son will decide."

You say · "Great, let's include them. What will they want to check: cost, tech or contract?"

7

They say · "Start after New Year."

You say · S8: "₹25k books the slot, adjusted against the advance, and today's price is locked."

8

They say · "Give me a discount."

You say · "5% for full payment upfront, or for a video testimonial. Otherwise Launch is the lower-cost start."

9

They say · "Built this exact app?"

You say · "Not this exact one, but the same engine: vendors, catalogue, orders, payments, dashboards. You just saw it with your brand."

10

They say · "You're new. Any clients?"

You say · "I built a booking marketplace alone for a European company, and my own loyalty SaaS. You pay in milestones, after seeing each one work."

11

They say · "What if you disappear?"

You say · "Code, domain, store accounts and data are in your name from day one, and you see a demo every week before the next payment."

12

They say · "Do it for equity."

You say · "Equity only on top of a paid build. Launch is the low-risk start."

13

They say · "Pay after it's done."

You say · "Milestones protect us both: 40% to start, 30% when you see the core working, 30% at launch."

14

They say · "Finish in 3 weeks?"

You say · "I could promise it, but I'd be lying. __ weeks is honest, and if we miss it because of us, two months of care are free."

15

They say · "Add this, same price."

You say · "Happy to add it in Phase 2. I'll put its price in the proposal now so there are no surprises."

16

They say · "Why monthly care?"

You say · "Servers, updates, store policy changes and fixes. Without it an app slowly breaks. Stop it anytime."

17

They say · "Still need Zomato/Swiggy."

You say · "Yes, for new customers. Your own app is for regulars, where you stop paying commission."

18

They say · "Retailers won't use an app."

You say · "Start with your top 30. Salesmen order for the rest in the same app. Usage grows when schemes appear only in the app."

19

They say · "Need a GST invoice."

You say · "Of course, every payment comes with an invoice." (Confirm your GST status with a CA first.)

20

They say · "Comparing agencies."

You say · "Please do. Compare rider/admin apps, code ownership and support. The proposal is valid 7 days; the next slot after that is __."

Same-day sequence after a yes: payment link on the call → agreement + invoice within the hour → kickoff within 24 hours of payment → tell the CEO that night → line up freelancers.

7 · SPEAK THE OWNER'S LANGUAGE

Sound like you've sat in their shop.

Distributors

How it runs · Salesmen visit retailers on fixed routes (बीट/लाइन). Retailers get credit (उधारी) for days or weeks. Brand schemes and slab discounts. Billing in Tally, Busy or Marg; orders re-typed by staff.

Where money leaks · what sells · Missed reorders between visits, typing errors, overdue credit, unknown schemes. Sells: self-ordering, credit limits, schemes in-app, daily sales + outstanding report.

Auto spare parts

How it runs · Parts vary by make, model, year and variant; OEM part numbers and aftermarket brands. Garages buy several times a day, often while the vehicle is on the lift, frequently on credit. Thousands of SKUs.

Where money leaks · what sells · Wrong-part returns, slow delivery, counterfeit worry. Speed beats a small price difference. Sells: part-number search, fast delivery, verified sellers.

Restaurants, sweet shops

How it runs · Commission plus ads and discounts on aggregators (owners often estimate 20–30%). Some have delivery boys. Festival peaks for sweets.

Where money leaks · what sells · Commission on regulars. Sells: own app for regulars, festival pre-orders, loyalty points. Be honest: aggregators still bring new customers.

Supermarkets, kirana chains

How it runs · WhatsApp/phone orders written by hand, delivery within a few km, a few hundred families drive revenue.

Where money leaks · what sells · Missed orders; fear of quick commerce. Sells: branded ordering, WhatsApp updates, loyalty.

Agri

How it runs · Company → distributor → licensed dealer → farmer. Seasonal around kharif and rabi sowing. Farmers buy on credit, repay after harvest. FPOs buy collectively.

Where money leaks · what sells · Launch must land before a season. B2B (dealers) first is simpler than B2C (farmers).

Booking / pet care

How it runs · Slots, verified providers, cancellations, ratings, payments. Recurring services suit subscriptions.

Where money leaks · what sells · Your strongest proof: the European booking marketplace is the same engine.

Owner vocabulary

उधारी credit

"उधारी किती दिवसांची देता?"

आउटस्टँडिंग pending dues

"मार्केटमध्ये किती आउटस्टँडिंग आहे?"

वसुली collection

"वसुलीसाठी किती वेळ जातो?"

बीट / लाइन route

"एका salesman कडे किती बीट?"

स्कीम offer

"चालू स्कीम retailers ना कशा कळतात?"

माल / स्टॉक goods

"माल संपला हे कधी कळतं?"

गिऱ्हाईक customer

"रोजचे गिऱ्हाईक किती?"

हिशोब the maths

"चला, एकदा हिशोब करू."

नफा / तोटा

"यात महिन्याला किती तोटा होतो?"

भांडवल capital

"भांडवल तयार आहे का?"

8 · TRAINING AND PASS MARKS

Train with the CEO before you spend a real lead.

Type "Role-play: [scenario]" in chat. The CEO plays the owner; you type exactly what you'd say; you get a score and one thing to fix.

Thu 12 Nov

Train · Section 2: qualify

Pass mark · Every pending lead answered with S1/S2 and scored 0–5 in the tracker.

Fri 13 Nov

Train · Section 4 + Appendix A

Pass mark · 16/20 on two discovery role-plays, including the spare parts founder.

Sat 14 Nov

Train · Section 7 + walk-ins

Pass mark · Explain each segment's leak in two sentences, no notes. Two shop visits done.

Sun 15 Nov

Train · Section 5

Pass mark · Base demo video recorded; one mock walkthrough with the CEO.

Mon 16 Nov

Train · Section 6

Pass mark · All 20 objections answered under 15 seconds each; S7 said with the real number, three times, without hesitation.

Role-play scenarios

Pharma distributor, Nashik, 400 retailers

Says "everything is fine, just modernising." Find the real leak.

3-outlet sweet shop, Sangli

Asks "how much?" from minute two. Hold the price until the payback maths.

Spare parts founder, Pune

Wants B2B + B2C + pan-India now, at a low price. Phase it, keep him excited.

Agri marketplace founder

Unsure if it's dealers or farmers. Get him to choose for Phase 1.

Discovery scorecard (20 points, pass at 16)

Clear opening and agenda

Pts · 2

Full marks · Permission line in minute one.

Talk ratio under 40%

Pts · 3

Full marks · Mostly questions, no feature lectures.

Leak found in rupees

Pts · 4

Full marks · At least one pain with a monthly ₹ number.

Payback maths with their numbers

Pts · 3

Full marks · Conservative, simple, owner agreed.

Budget, decision-maker, timing confirmed

Pts · 3

Full marks · All three asked directly.

Scope controlled

Pts · 2

Full marks · Extras parked for Phase 2 without killing excitement.

Next step booked

Pts · 3

Full marks · Walkthrough date and time fixed before hanging up.

Daily drill (15 minutes before the 3:30 calls block): say S7 aloud three times without your voice dropping on the number · five random objection cards aloud · re-read yesterday's call notes: what did the owner say about money?

APPENDIX A · LIVE DEAL

Spare parts marketplace, Pune.

Wholesalers and distributors selling car and bike parts to garages, parts shops and later vehicle owners; commission per order; own riders; Pune first, then pan-India. Target: Growth tier ₹2.95L, advance ₹1,18,000 by 25 Nov.

What he's told us so far

_____

Sellers committed (names/areas)

_____

Garages/shops he can bring in month 1

_____

Capital for tech / funding source

_____

Target launch date · other decision-makers

_____

Insight from your shop visits

_____

Questions, in order

1. **Why him:** background in auto parts? How did he spot the gap?

2. **Supply:** how many wholesalers agreed to list? Where does their stock data live: Tally, Busy, Excel?
3. **Demand:** first 50 garages? Why will they order in the app instead of calling their usual shop?
4. **Fitment:** how will a garage know the part fits: part number, vehicle model, or seller confirms?
5. **Speed and money:** delivery promise in hours? Commission %? Credit or prepaid? Who pays delivery? Who absorbs wrong-part returns?
6. **Decision:** capital set aside? Who else decides? Date of the first real order?

If he can't answer supply and demand, he isn't ready for ₹3L: offer Launch, or ask him to return once 5 sellers have agreed.

STEER TO PHASE 1

B2B, B2C आणि pan-India एकदम सुरू करणं हे marketplaces चे पैसे संपण्याचं सगळ्यात मोठं कारण आहे. आधी Pune मध्ये garages आणि parts shops साठी B2B सुरू करू. Garages ना part numbers माहीत असतात, ते रोज order करतात, आणि त्यांना तुम्ही स्वतः भेटून onboard करू शकता.

Launch

Scope · Buyer web app, seller panel, admin, basic commission; riders assigned by admin.

Time · 6–7 weeks

Price · ₹1.75L

Growth ★

Scope · Android buyer app + web, seller panel, rider app with OTP delivery, full commission and settlements.

Time · 10–12 weeks

Price · ₹2.95L

Scale

Scope · Growth + iOS, live GPS tracking, basic vehicle-owner (B2C) module.

Time · 14–16 weeks

Price · ₹4.25L

His likely objections: "B2C is where the money is" → needs a fitment database and marketing spend; prove B2B first, Scale adds it. · "₹2.95L before I earn anything" → Launch at ₹1.75L, upgrade when orders grow. · "Do it on commission" → only on top of a paid build. · "Built a parts marketplace?" → multi-vendor booking marketplace for a European client, same engine; branded demo in 48 hours. · "Loading thousands of parts?" → sellers bulk-upload Excel; we map columns once. **Demo:** his brand, 15–20 real parts (brake pads, filters, clutch plates, bulbs) with brands and part numbers, two sellers, one garage buyer.
