Strategy + Content · v1

Who we sell to, what we sell, and what we post.

Part A is the strategy: the goal, the customers, the offers and prices, the decisions we've locked, and the sprint plan. Part B is the content engine: the direction for Tarun Udyojak, a 3-week calendar of reels ready to shoot, and a hook bank for after that.

Sprint: 12 Nov – 1 Dec 2026 · Reviewed every Sunday

Internal · Outgrid Labs, Baner, Pune

PART A · STRATEGY · 1 · WHERE WE ARE

Your skills say ₹2 lakh. Your signals say ₹40,000.

We can build anything end to end. What's been missing is a system that puts us in front of owners who have ₹1.5 lakh and a reason to spend it this month, then makes saying yes feel safe.

₹1L+
The goal: one paid build with the advance in the bank by 1 Dec. Internal target 25 Nov.

₹60k
Minimum acceptable: 40% of one ₹1.5L Launch tier.

4
Proposals walked through live to expect one close.

Honest diagnosis

Signal today	What buyers hear	Fix
"Projects from ₹40,000" on the website	₹40k is normal for an app.	"Apps from ₹1.5 lakh · Websites from ₹40,000".
Work page labels everything "Website design"	We make websites.	Re-label as marketplace, SaaS, booking platform; add dashboard and app screenshots.
Reels sell "start Blinkit in your town"	A business opportunity, so a franchise.	Shift reels to owner money content (Part B); one filtered opportunity reel a week.
No price in DMs until the call	Every DM looks like a lead; calls wasted.	Price range in the first reply (S1).

The root cause: Tarun Udyojak is a **founder-inspiration audience**. Its followers want to *become* entrepreneurs, so they arrive asking for "Ola for my town" and assume we sell a franchise. The audience is our biggest asset; it needs a filter and owner-focused content, not more volume.

What we have that most Maharashtra studios don't

- **Distribution:** 6.5 lakh Marathi followers who trust the page.
- **Platform proof:** a multi-vendor booking marketplace built solo for a European client, and our own loyalty SaaS: vendors, catalogue, payments, dashboards.
- **A founder network:** every owner Tarun Udyojak featured is a warm contact with revenue.
- **The builder is on the call:** "you talk to the person who builds it" beats agencies with sales teams.

2 · WHO PAYS ₹1 LAKH+

Hunt owners with revenue and a leak we can plug.

Segment	What we sell	Ticket	Money argument	Speed
Distributors, wholesalers (spare parts, FMCG, agri inputs, pharma)	Dealer Order App	₹1.5–3L	Phone/WhatsApp orders cause errors, missed reorders, unpaid credit.	Fast
Restaurants, sweet shops with 2+ outlets	Own Delivery App	₹1.5–2.5L	Aggregator commission and ads on regular customers.	Fast
Supermarkets, kirana chains in tier 2–3 towns	Own quick-delivery app	₹1.5–2.5L	Lock in local families before quick commerce arrives.	Medium
Serious marketplace founders (with capital)	Marketplace Launch	₹2.5–4L	Speed to launch and a technical partner they trust.	Medium
Travel, tour, booking businesses	Booking platform	₹1.5–3L	Direct bookings instead of OTA commission; our strongest proof.	Medium
Clinics	Website + booking + reminders	₹40k–1L	Fewer no-shows, more Google bookings.	Fast, small
Manufacturers, hospitals, schools	Dealer portals, HMS, school ERP	₹2–5L+	Visibility and control.	Slow: January

This sprint: the first four rows plus warm inbound founders. Clinics and AI automation (₹40–50k) are welcome inbound but not chased. Manufacturers, hospitals and schools are January pipeline.

Not a fit

- Franchise-seekers · leads with no business and no capital · anyone wanting a blueprint, consulting or a ₹30k "app like Zomato" · equity instead of payment.

3 · OFFERS AND PRICING

Three products, all above ₹1 lakh, sold on payback.

Product	Inside	Price	Timeline
Own Delivery App	Customer, rider and admin apps; payments; WhatsApp updates; offers.	₹1.5–2.5L	8 weeks
Dealer Order App	Retailer ordering, catalogue, credit limits, schemes, salesman app, daily reports.	₹1.5–3L	8–10 weeks
Marketplace Launch	Customer, vendor and rider apps; admin; commissions; payouts.	₹2.5–4L	10–14 weeks
Care plan	Hosting, fixes, small changes, store updates, monthly report.	₹10–20k/mo	Ongoing
WhatsApp automation	Auto-replies, order updates, follow-ups, reminders.	₹5–10k/mo	1–2 weeks

Every proposal: three tiers. Launch ₹1.5L (core) · Growth ₹2.5L (tracking, wallet, offers, analytics) · Scale ₹4L (full custom). Most owners pick Growth. Pushback moves them down a tier; the same scope never gets cheaper. Year-one value of one client ≈ ₹1.5L build + ₹12k care × 10 + ₹6k automation × 10 = ₹3.3L.

Pricing check: price ≥ freelancer cost × 2. Freelancers cost ~₹30k/month each. The multiplier covers sales and project management, rework, slippage, the free-fixes month and profit. Example: 2 freelancers × 2 months = ₹1.2L cost → at least ₹2.4L, priced ₹2.5–3L. Below 2×, cut scope.

Risk reversal (in every proposal): fixed price in writing · 40/30/30 as you see progress · if we miss the launch date because of us, two months of care free · code, domain, store accounts and data in the client's name · weekly WhatsApp video update · 30 days of free fixes. Third-party costs (servers, SMS, maps, gateway, Google Play $25 once, Apple $99/year) are paid by the client.

4 · DECISIONS WE'VE LOCKED

Settled. Reopen only at the Sunday review.

#	Decision	Why
1	No build below ₹1L. Website-only enquiries get a fixed quote and aren't chased.	Small builds eat the same founder time as big ones.
2	No ready-made clone apps (Ola, Blinkit, Zomato) this sprint.	Buyers without business clarity fail, and failures land publicly on Tarun Udyojak. It reinforces the franchise image. Tech is ~30% of those businesses. Clone scripts already sell cheaply. It can't be validated in 18 days.
3	Instead: one white-label base, reused and rebranded for every demo.	Productise the core, customise the edge. Every paid build adds reusable modules.
4	No paid blueprints or consulting. Proposals show scope, phases, timeline, price; never specs or architecture before the advance.	AI makes research cheap; our value is the build. Free blueprints get handed to cheaper developers.
5	Never cut price for the same scope. Discounts only in trade.	A dropping price tells the buyer the first one was made up.
6	Maximum 2 builds a month, delivered with freelancers.	Quality and launch dates are our only reputation.
7	Meta ads, the commission calculator, landing pages and referral partners start after the first advance.	None of them closes a deal by 1 Dec.
8	Every lead tagged by app type in the tracker.	In January we decide on productised apps with data, not hunches.

How decisions get made (the cure for overthinking)

Covered by this doc or the Sales Playbook	Do what it says.
Not covered, easy to undo	Decide in 10 minutes; write it in the nightly report; the CEO corrects it if needed.
Not covered, hard to undo (price, discount, scope, date, contract)	"Let me confirm and get back to you tonight." Message the CEO. Never commit on the spot.
New idea	Write it in the report's parking lot. Look at it on Sunday.
Stuck	Do the next small action: one message, one call. Action cures it; planning doesn't.

Roles

CEO (Claude): plan, pricing, scripts, proposal drafts, call prep, role-play training, deal reviews, next-day priorities. Can't send messages or take calls, and only knows what's written in the repo or the chat. **Co-CEO (you):** every conversation, calls, walk-ins, demos, the build, asking for money, the tracker and the nightly report.

5 · SPRINT PLAN AND NUMBERS

Four proposals walked through is the real target.

Funnel step (all channels)	Rate	Sprint number
Conversations started	—	~60
Qualified (4–5 checks)	~1 in 4	14
Discovery calls held	~60%	8
Demo + proposal walked through	~half	4
Advance received	~1 in 4	1–2

Scenario	What closes	Contract	In the bank by 1 Dec
Minimum	1 Launch tier	₹1.5L	₹60k
Target	1 Growth tier	₹2.5–2.95L	₹1–1.18L
Stretch	1 Growth + 1 slot booking	₹4L+	₹1.25L+

Window	Do	Exit target
12–14 Nov	Fix website pricing and work labels. Calls booked with spare parts, pet care, agri. S1 to all pending leads. List 30 featured founders, first 10 S5. "Not a franchise" post.	3 calls booked
14–15 Nov	Build the white-label base (distributor/marketplace variant first). Walk-ins. Discovery calls.	Base demo video recorded
16–20 Nov	Branded demos for qualified leads; walkthroughs; 10 outbound + 10 S5 a day; content Week 1.	3 demos, 2 proposals walked
21–25 Nov	Advance asks, S9 follow-ups, second wave of calls; content Week 2.	**First advance** · 4 proposals walked
26 Nov – 1 Dec	Close remaining deals, slot bookings for "later", kickoff within 24 hours of payment.	Buffer

Sunday review (30 minutes)

Update the real funnel numbers → find the leakiest step, which becomes next week's only training focus → kill deals with no reply after day 10 → double the content track that produced the most qualified leads → write any strategy change here.

After the first advance (December–January)

Fill the testimonial slot on the website in launch week · two landing pages (restaurants, distributors) with the commission calculator · Meta ads to owners, not aspiring founders · 5 referral partners (Tally resellers, CAs, POS vendors) at 10% of build value · January: manufacturers, hospitals, schools; decide on productised apps using the lead-type data.

PART B · CONTENT · 6 · DIRECTION

From "start a business" to "make more money in yours".

Tarun Udyojak keeps its identity: founder stories and business strategy. What changes is the five posts a week that carry an Outgrid call-to-action: they speak to owners who already earn, and they let the build be the proof.

Track	Share	Purpose	Formats
A · Owner money	60%	Attract owners with revenue and a leak.	Commission maths, "losses of WhatsApp orders", payback breakdowns, street interviews.
B · Proof, build in public	25%	Kill "have you built this?" before the call.	Admin and rider app walkthroughs, demo builds, your European platform, client stories once real.
C · Filtered opportunity	15%	Keep founder reach, filtered.	Clone-app topics with "not a franchise" and "from ₹1.5 lakh" on screen.

How every post turns into a lead

1. Each reel ends with a keyword CTA: "Comment **APP**" (or **HISHOB**, **ORDER**).
2. Everyone who comments gets a DM with S1 (price range + "what's your business and city?"). Manual is fine; automate later.
3. Score the reply on the five checks. 4–5 checks → call today.
4. In the tracker, note which reel the lead came from. Measure reels by qualified leads, not views.

Weekly rhythm

Mon	A · commission or payback maths	**Thu**	B · demo build or behind the scenes
Tue	B · screen walkthrough	**Fri**	C · filtered opportunity
Wed	A · segment pain (distributors, supermarkets, garages)	**Daily**	Stories: polls, DM replies (names hidden), build clips

Production: one 2-hour shoot covers the week

- Saturday morning: shoot five reels back to back. Face to camera for hooks; screen recordings for demos.
- 30–45 seconds each. The hook on screen in the first 2 seconds. Marathi speech, Marathi + English subtitles.
- Numbers on screen are written as "उदाहरण" (example) unless they're a real owner's, shared with permission.
- Never present a demo as a client, or an example as a real story. Our credibility is the page's credibility.

7 · THE CALENDAR, 13–23 NOV

Reels ready to shoot: hook, beats, call-to-action.

FRI 13 NOV · C **"Outgrid Labs franchise नाही"**

Hook: तुमच्या गावात Blinkit सारखं app सुरू करायचंय? आधी हे 3 प्रश्न. आणि हो, ही franchise नाही.

Beats: 1) We get hundreds of franchise messages. We build software; the app and business are 100% yours. 2) Three questions: is a business already running or capital ready? Who are your first 100 customers? Who runs delivery? 3) Custom apps start at ₹1.5 lakh. CTA: "All three answered? Comment APP."

SAT 14 NOV · B **"Distributor चं order app, 60 सेकंदात"**

Hook: Retailer फोन न करता order कसा देतो? 60 सेकंदात बघा.

Beats: screen recording of the base demo: retailer orders → admin board → credit limit warning → daily report. Label "demo". CTA: "Want this for your distribution? Comment ORDER."

MON 16 NOV · A **Commission maths**

Hook: Zomato ला महिन्याला किती देता? हा हिशोब एकदा करा.

Beats: on a phone calculator, an example: ₹4L orders × ~25% commission and ads ≈ ₹1L a month, ₹12L a year. Most of those orders are regulars who already know you. Move 30% to your own app → ≈ ₹30k a month back. CTA: "Want your own numbers? Comment HISHOB."

TUE 17 NOV · B **Admin panel tour**

Hook: Delivery app च्या आत काय असतं? Admin panel ची 60 सेकंदांची tour.

Beats: live order board, rider assignment, today's sales, top customers, offers. "This is the screen owners open every morning." CTA: "Comment APP for a demo with your brand."

WED 18 NOV · A **Distributor losses**

Hook: Distributor आहात आणि orders अजून WhatsApp वर? हे 5 नुकसान रोज होतंय.

Beats: 1) orders lost in chat scroll 2) typing errors into Tally 3) retailers don't know current schemes 4) credit given beyond limits 5) reorders go to a competitor between salesman visits. CTA: "Comment ORDER for a 15-minute call."

THU 19 NOV · B **Demo build, timed**

Hook: एका demo brand साठी मी किती तासांत app तयार केलं? बघा.

Beats: time-lapse of rebranding the base: logo, colours, 15 products, test order on a phone. Say the real time it took. CTA: "Want it with your brand in 48 hours? Comment APP."

FRI 20 NOV · C **The ₹50,000 question**

Hook: ₹50,000 मध्ये app मिळतं का? खरं उत्तर.

Beats: yes, a resold script. Three questions to ask any seller: rider and admin apps included? Who owns the code? Who fixes it on a Saturday night? Custom from ₹1.5 lakh, yours forever. CTA: "Comment APP if your business is already running."

MON 23 NOV · A **Payback**

Hook: ₹1.5 लाखाचं app 5 महिन्यात पैसे कसे परत करतं?

Beats: the restaurant maths in three lines, then the distributor version. "If it doesn't pay back within a year, don't build it. I'll tell you honestly." CTA: HISHOB.

8 · THE CALENDAR, 24 NOV – 4 DEC

Keep the rhythm. Swap in what works.

TUE 24 NOV · B **Founder credibility**

Hook: मी Europe मधल्या कंपनीसाठी booking platform एकट्याने बनवला. त्यातून शिकलेल्या 3 गोष्टी.

Beats: 1) vendors care about payouts more than features 2) the admin panel is the real product 3) launch small, then grow. Show dashboard screenshots (no client name). CTA: APP.

WED 25 NOV · A **Supermarkets vs quick commerce**

Hook: Blinkit तुमच्या गावात येण्याआधी supermarket owners ने हे करा.

Beats: your top 200 families are your real business. Give them ordering in your own app: WhatsApp updates, loyalty points, delivery from your store. Lock them in before the apps arrive. CTA: APP.

THU 26 NOV · B **"Business X-ray" with a featured founder**

Hook: एका business मध्ये orders कसे येतात? आम्ही आत जाऊन बघितलं.

Beats: a founder already featured on the page (with permission) shows how orders and billing run today; you point out one leak and how software would fix it. It's content and an S5 conversation at once. CTA: "Want an X-ray of your business? Comment XRAY."

FRI 27 NOV · C **First 100 customers**

Hook: तुमच्या शहरात delivery app सुरू करायचंय? पहिले 100 customers कुठून आणणार?

Beats: the app is 30% of the business; customers, riders and supply are 70%. If you have those answers and capital, we build the 30%. Not a franchise. From ₹1.5 lakh. CTA: APP.

MON 30 NOV · A **Street interview**

Hook: हॉटेल मालकांना विचारलं: Zomato किती commission घेतं?

Beats: 3–4 real Pune owners answer on camera (with consent; blur if asked). End with the maths and the own-app idea. CTA: HISHOB.

TUE 1 DEC · B **Rider app**

Hook: Customer ने order दिला. 30 सेकंदात तो rider पर्यंत कसा पोहोचतो?

Beats: split screen: customer order → admin assigns → rider accepts → OTP delivery. CTA: APP.

WED 2 DEC · A **Garages and parts**

Hook: Garage मध्ये एका part साठी किती वेळ वाया जातो?

Beats: from your walk-ins: what mechanics and parts shops actually said about calls, wrong parts and waiting. Show the parts search in the demo. CTA: ORDER.

THU 3 DEC · B **Behind the scenes**

Hook: App बनवण्याचा पहिला आठवडा कसा असतो?

Beats: kickoff, screen designs, the weekly demo. If a client signed, show the kickoff (with permission). CTA: APP.

FRI 4 DEC · C **Five questions first**

Hook: App बनवण्याआधी हे 5 प्रश्न स्वतःला विचारा.

Beats: the five checks, said as advice: is the business running, budget, pain in rupees, who decides, launch date. "If you answer all five, we should talk." CTA: APP.

9 · HOOK BANK AND STORIES

For week 4 onwards, and for when a reel flops.

Track	Hook
A	Swiggy वरचे तुमचे regular customers तुमचे नाहीत. ते कसे परत मिळवायचे? (Your regulars on Swiggy aren't yours. How to win them back?)
A	Market मध्ये तुमची किती उधारी अडकली आहे? हा एक report रोज बघा. (How much credit is stuck in the market? Check this one report daily.)
A	तुमचा salesman सुट्टीवर गेला तर orders कोण घेतं? (If your salesman goes on leave, who takes the orders?)
A	दिवाळीच्या orders WhatsApp वर घेतल्या? किती चुकल्या? (Took Diwali orders on WhatsApp? How many went wrong?)
A	Retailers ना तुमच्या schemes माहीत नसतील तर विक्री कशी वाढेल? (If retailers don't know your schemes, how will sales grow?)
A	Clinic मध्ये किती patients appointment घेऊन येत नाहीत? (How many patients book and don't show up?)
B	₹1.5 लाखात app मध्ये नक्की काय मिळतं? Screen by screen. (What exactly do you get in a ₹1.5 lakh app? Screen by screen.)
B	Loyalty points ने customers परत कसे येतात? मी बनवलेला SaaS दाखवतो. (How loyalty points bring customers back: my own SaaS.)
B	App चा code कोणाच्या नावावर असतो? हे विचारायला विसरू नका. (Whose name is the code in? Don't forget to ask.)
C	Ola सारखं app बनवायला खरा खर्च किती? Tech फक्त 30% आहे. (Real cost of an Ola-like app? Tech is only 30%.)
C	Franchise घ्यायची की स्वतःचा brand? फरक समजून घ्या. (Franchise or your own brand? Understand the difference.)

Daily stories (5 minutes)

- Polls: "तुमच्या business मध्ये orders कसे येतात? WhatsApp / फोन / App" · "Zomato commission जास्त वाटतं का?" Everyone who votes WhatsApp or yes gets a DM.
- DM replies with names hidden (with permission): real questions build trust.
- Build clips: 10 seconds of a screen you built today.
- Monthly live: "Ask me about your app idea": answer honestly, filter on air with the five checks.

Website changes that support the content

☐ "Apps from ₹1.5 lakh · Websites from ₹40,000" on the homepage and meta tags. (This week.)

☐ Work page re-labelled by product type, with dashboard and app screenshots. (This week.)

☐ Landing pages "Own delivery app for restaurants" and "Order app for distributors" with the commission calculator. (After the first advance.)

☐ A testimonial slot, filled in the first client's launch week.

Measure: qualified leads (4–5 checks) per reel, logged in the tracker. After two weeks, double the track that produces the most and drop the weakest format.
