First ₹1 lakh+ client in 20 days.

Sales playbook: who pays, what to sell, how to get the call, how to close it, and how to get the advance in the bank. Plus the content direction for what comes next.

Sprint: 12 Nov – 1 Dec 2026

Internal · Outgrid Labs, Baner, Pune

01 · THE WHOLE PLAN ON ONE PAGE

Sell money to business owners. Close with their own app on screen.

You can already build anything end to end. What's missing is a system that puts you in front of people who have ₹1.5 lakh and a reason to spend it this month, then makes saying yes feel safe.

₹1.5L
Minimum app price. No build below ₹1L.

₹60k
40% advance on the smallest deal, in the bank by 1 Dec.

4
Proposals walked through live to close 1 deal.

Lever	What changes from today
Who	Owners who already make money: distributors, multi-outlet restaurants, supermarkets, serious marketplace founders. Not people looking for a "franchise".
What	Three productised offers priced ₹1.5L–4L, each sold on payback (commission saved, orders gained, staff hours cut), not on features.
Where leads come from	Four channels at once: the founders Tarun Udyojak already featured, owner-focused reels, 10 outbound DMs a day, and referral partners (Tally resellers, CAs).
How you win	The branded demo: their name, logo and products on a working app within 48 hours of the first call. Almost no local agency does this.
How you close	Live payback maths on the call, three options, a launch-date commitment, then a direct ask for 40%. If they want to start later, a ₹25k slot booking.
Website and content	Stop leading with "from ₹40,000". Show your projects as platforms, not websites. Shift reels from "start a business" to "save money in your business".

Daily non-negotiables (about 2 hours in the evening, around your full-time role)

- Reply to every inbound lead within 2 hours, using the price-first filter.
- Send 10 personalised outbound messages to business owners.
- Move every live deal one step: call booked, demo sent, proposal walked through, or advance asked.
- Publish one piece of content and update the tracker (5 minutes).

02 · HONEST DIAGNOSIS

Your skills say ₹2 lakh. Your signals say ₹40,000.

Leads arrive with the budget your marketing suggests. Right now four signals are pulling in small budgets and idea-stage dreamers.

Signal	What it tells a buyer today	Fix this week
"Projects start from ₹40,000" on the homepage and in meta tags	That ₹40k is normal. Vijay's form came in at ₹40k–1L, exactly the anchor you set.	Split it: "Apps from ₹1.5 lakh · Websites from ₹40,000", or remove the from-price from the homepage. In the start form, make app budgets begin at ₹1L.
Work page labels all three projects "Website design · Development · SEO"	That you make websites. Nothing says marketplace, SaaS, booking engine or admin panel.	Re-label each project by what it really is, for example a loyalty SaaS with merchant dashboards, or a booking platform. Add 3 screenshots of dashboards and apps, not just homepages.
Reels sell "start Blinkit or Zomato in your town"	A business opportunity, so people hear "franchise" and arrive without capital or operations.	Keep one opportunity reel a week; make the rest owner-focused money content (section 09).
No price in DMs until the call	Every DM looks like a lead, so you spend calls on people who can never pay.	Say the price range in the first or second reply. Fewer calls, much better calls.

What you have that most studios in Maharashtra don't

- **Distribution:** a 6.5 lakh Marathi founder audience that already trusts the page.
- **Real platform proof:** a booking marketplace for a European client, built solo, and a loyalty SaaS you built yourself. Booking, vendors, payments and dashboards are the same core as every app your leads ask for.
- **A founder network:** every business owner Tarun Udyojak has featured is a warm contact with revenue.
- **The builder on the call:** "You talk to the person building it" is a real advantage against agencies with sales teams. Keep saying it.

03 · WHO PAYS ₹1 LAKH+

Hunt owners with revenue and a leak you can plug.

A ₹1.5L decision is easy for someone losing ₹50k a month. It's impossible for someone who hasn't started. Rank segments by how fast the owner can say yes.

Segment	What you sell	Ticket	The money argument	Close speed
Distributors and wholesalers (spare parts, FMCG, agri inputs, pharma)	Retailer ordering app, credit limits, schemes, daily sales report	₹1.5–3L	Orders on phone and WhatsApp mean errors, missed reorders and unpaid credit	Fast: one owner decides
Restaurants and sweet shops with 2+ outlets	Own delivery app with customer, rider and admin apps, no commission	₹1.5–2.5L	Aggregator commission and ads take roughly 20–30% of each order (approx.)	Fast
Supermarkets and kirana chains in tier 2–3 towns	Own quick-delivery app with WhatsApp order updates	₹1.5–2.5L	Lock in local customers before quick-commerce apps reach their town	Medium-fast
Serious marketplace founders (your inbound: spare parts, pet care, agri)	Multi-vendor marketplace	₹2–4L	Speed to launch and a technical partner they can trust	Medium
Travel and tour operators	Booking platform with operators, slots and payments	₹1.5–3L	Direct bookings instead of OTA commission. Your strongest proof match.	Medium
Manufacturers	Dealer portal, inventory, purchase approvals	₹2–5L	Dealer orders and stock visibility	Slow: more people decide
Coaching institutes	Fees, attendance, parent app, WhatsApp reminders	₹1–2L	Fee collection and parent trust	Seasonal

For this 20-day sprint: work the three highlighted segments plus your warm inbound founders. Manufacturers and coaching institutes are January pipeline.

Your three serious enquiries, mapped to your proof

Lead	Proof to show	Next move
Spare parts marketplace	The booking marketplace: vendors, catalogue, orders, payments and admin are the same pattern	Call within 48 hours. Branded demo, then a proposal at ₹2–3L.
Dog walking and pet grooming	The booking marketplace almost one to one: providers, time slots, bookings, payments, ratings	Lead with "I've built exactly this kind of booking engine". Proposal at ₹1.8–2.5L.
Agri marketplace	Marketplace plus distributor ordering: farmers, dealers, credit	Ask whether it's B2B (dealers) or B2C (farmers) first, because that sets scope. Proposal at ₹2–3.5L.

04 · THE OFFER

Three products, all above ₹1 lakh, sold on payback.

Owners don't buy "an app". They buy commission back, orders captured and staff hours saved. Package your work so it's easy to understand, compare and say yes to.

Product	For	What's inside	Price	Timeline
Own Delivery App	Restaurants, sweet shops, supermarkets	Customer app, rider app, admin panel, payments, WhatsApp order updates, offers	₹1.5–2.5L	8 weeks
Dealer Order App	Distributors, wholesalers, manufacturers	Retailer ordering app, catalogue, credit limits, schemes, salesman app, daily reports	₹1.5–3L	8–10 weeks
Marketplace Launch	Founders	Multi-vendor apps (customer, vendor, rider), admin, commissions, payouts	₹2.5–4L	10–14 weeks
Care plan (recurring)	Every build	Hosting, fixes, small changes, store updates, monthly report	₹10–20k / month	Ongoing
WhatsApp automation (add-on)	Every build	Auto-replies, order updates, follow-ups, reminders	₹5–10k / month	1–2 weeks

Every proposal has three options

Launch ₹1.5L (core flows) · **Growth ₹2.5L** (tracking, wallet, offers, analytics) · **Scale ₹4L** (full custom). Most owners pick the middle one. If they push on price, move down a tier; never cut the same scope for less money.

Year-one value of one client

₹1.5L build + ₹12k care plan × 10 months + ₹6k automation × 10 months = **₹3.3L** from a single "₹1.5L" deal. Always quote the care plan alongside the build.

Risk reversal: what makes ₹1.5L feel safe

Promise	How to say it
Fixed price in writing	"The number in the proposal is the number you pay. Changes outside scope are quoted before we do them."
Pay as you see progress	40% to start, 30% after core development, 30% at delivery. This already matches your website.
Launch-date commitment	"If we miss the agreed launch date because of us, your first two months of care plan are free."
You own everything	Code, domain, store accounts and data are in your name from day one.
Weekly proof	A video update on WhatsApp every week and a live demo at every milestone.
30-day bug fixing	Free fixes for 30 days after launch, then the care plan.

Rules: no build below ₹1L. Website-only enquiries get a fixed quote, but you don't chase them. No equity in place of payment. Third-party costs (servers, SMS, maps, payment gateway, Google Play $25 once, Apple $99 a year) are always paid by the client.

05 · LEAD ENGINE

Four channels at once. Don't wait for reels alone.

Inbound alone is too slow and too noisy to land a ₹1L+ deal in 20 days. Run all four channels in parallel, and measure qualified conversations, not likes.

Channel	How to run it	20-day target
1. Featured founders (your hidden goldmine)	List every business owner Tarun Udyojak featured in the last 12–18 months. They have revenue, they trust the page, and they'll take your call. Send a personal message (script S5), then ask what slows their business down. Ask each one for a referral too.	30 messages → 8 conversations → 2–3 qualified
2. Owner-focused content	Money reels with the price in the caption and a keyword CTA (section 09). Every inbound gets the price-first filter (S1).	40 enquiries → 5–7 qualified
3. Outbound, 10 a day	Restaurants with strong aggregator ratings and 2+ outlets; distributors from IndiaMART and JustDial; supermarkets in tier 2 towns. Personalise the first line, and offer a demo in their name (S3, S4). In Pune you can also walk in on weekends.	150 messages → 15 replies → 4–5 qualified
4. Referral partners	Tally resellers, CAs, POS vendors and local marketing agencies talk to owners every day. Offer 10% of the build value for every closed referral.	5 partners signed; leads mostly arrive in December

Qualify before you spend a call: the five checks

Check	Qualifies when	Question to ask
Business	Already operating, or an investor-ready founder with capital set aside	"Business सध्या चालू आहे का?" (Is the business running now?)
Budget	Agrees to the ₹1.5L+ range when you say it	"असे projects ₹1.5–3 लाखांत होतात. चालेल का?" (These cost ₹1.5–3L. Does that work?)
Pain	Can name a cost: commission, errors, lost orders, staff time	"सध्या सगळ्यात जास्त नुकसान कुठे होतंय?" (Where are you losing the most?)
Decision	Decides alone, or will bring the partner to the call	"निर्णय तुम्ही घेता की partner सोबत?" (Do you decide, or with a partner?)
Timing	Wants to start within 60 days	"कधीपर्यंत launch करायचं आहे?" (When do you want to launch?)

4–5 checks: book the call today. **3:** one more WhatsApp exchange first. **Under 3:** polite exit, add them to the broadcast list, and spend no call time.

06 · FROM FIRST MESSAGE TO ADVANCE IN 7–10 DAYS

A short, tight deal cycle.

1. **Day 0, first message:** reply within 2 hours. Price-first filter and the five checks.
2. **Day 1–2, discovery call (30 min):** diagnose the money leak and do the payback maths live. End with the demo promise.
3. **Day 3–4, branded demo plus proposal:** send a 2-minute video of their app, then a 15-minute walkthrough call.
4. **Day 4–5, close on the call:** three options, the advance ask, the agreement sent the same day.
5. **Day 5–10, follow-up:** day 2 and day 5 messages, plus the slot-booking option.
6. **Within 24 hours of payment:** kickoff call, timeline, first weekly update.

Discovery call: 30 minutes, you talk 30% of the time

Block	What to ask or say
Open (2 min)	"I'll understand your business, show you where an app makes or saves money, and tell you honestly if it doesn't. Okay?"
Today (8 min)	How do orders come in now? How many a day or month? Average order value? Who handles them? What goes wrong most weeks?
The leak (8 min)	How much goes to commission or ads each month? How many orders or retailers are missed? How many staff hours go into this? What happens if nothing changes for a year?
Payback maths (5 min)	Do it live on a shared screen with their numbers (box below).
Decision (4 min)	Who else decides? Budget kept aside? Ideal launch date?
Next step (3 min)	"Give me 48 hours. I'll send you a demo with your own brand on it, then walk you through the plan and price. Thursday at 7 pm or 8 pm?"

Live payback maths (replace these with their numbers)

Restaurant, example: ₹4L a month of aggregator orders × 25% commission and ads = ₹1L a month leaving the business. Move 30% of orders to their own app and they save about ₹30k a month. A ₹1.5L app pays back in about 5 months, then saves ₹3.6L a year.

Distributor, example: ₹50L a month in sales. If faster ordering and reminders lift repeat orders by just 3%, that's ₹1.5L more sales every month. The app pays for itself in the first month of margin.

The branded demo: your unfair advantage

- Keep a white-label base build of each product, so changing name, logo, colours and catalogue is a configuration step, not a rebuild.
- Pull their logo, menu or products from their Instagram, aggregator page or catalogue. Load 10–20 items.
- Record a 2-minute screen video: the customer orders, the admin sees it, the rider gets it. Their brand in every frame.
- Budget 3–4 hours per demo, and do it only for leads who pass 4–5 checks. That's a few evenings a week at most.
- Open the walkthrough call with the demo, not the price. Once they've seen their own app, the question becomes "when" rather than "whether".

07 · PROPOSAL AND CLOSE

Never send a PDF and wait. Walk it, then ask.

Proposal: 4 pages, their logo on the cover

1. **Their goal in their words,** plus the payback maths from the call.
2. **Screens from their demo,** 3 or 4 of them.
3. **Three options side by side,** with what each includes and excludes.
4. **Timeline** with 3–4 milestones, each with a demo.
5. **Price, payment terms** (40/30/30) and the care plan.
6. **Risk reversal:** the six promises from section 04.
7. **Proof:** your two platforms with dashboard screenshots.
8. **Valid for 7 days,** and the next available start date.

Objections at ₹1 lakh+

They say	You say
"Too expensive"	"Compared to the ₹1L a month going out today? We worked out it pays back in about 5 months. If you want a smaller start, Launch at ₹1.5L covers the core, and we add the rest when orders grow."
"Someone quoted ₹40–50k"	"Ask them three things: do you get the rider and admin apps, who owns the code, and who fixes it when it breaks on a Saturday night. If the answer is yes to all three, take their offer."
"I'll think about it"	"Of course. What's the one thing you're unsure about: the price, the plan, or the timing?" Then answer only that.
"Give me a discount"	Trade, never gift: 5% off for paying 100% upfront, or for a video testimonial and case study. Otherwise, move down a tier.
"Let's start after the new year"	Offer the slot booking (S8): ₹25k now, adjusted against the advance, and today's price is locked.
"Have you built this exact app?"	"Not this exact one, but the same engine: vendors, catalogue, bookings, payments, dashboards. And you've just seen it running with your brand on it."
"Let me ask my partner or family"	"Let's do 15 minutes with them tomorrow so I can answer their questions directly."
"Do it for equity"	"I only take equity on top of a paid build. If you believe in it, the Launch tier is the low-risk start."

Collecting the advance

- Ask on the call, then stop talking (S7). Send the payment link while you're still on the call.
- Use a Razorpay link or bank transfer to an account in the business name, with an invoice for every payment. Check GST requirements with a CA; I'm not a tax advisor.
- Use a one-page agreement covering scope, milestones, the change-request rule, code ownership after full payment, 30-day fixes, accounts in the client's name, and third-party costs.
- Say "I take only 2 builds a month" only because it's true: with your current job, two is your real capacity.

08 · SCRIPTS

Copy, personalise, send.

Save these as WhatsApp Business quick replies. Change the names and numbers every time; generic messages get ignored.

S1 Price-first reply to any inbound

नमस्कार! आम्ही businesses साठी delivery, ordering आणि marketplace apps बनवतो: customer app, rider app आणि admin panel. असे projects साधारण ₹1.5 ते 3 लाखांमध्ये होतात. तुमचा business कोणता आणि कोणत्या शहरात आहे?

Hi! We build delivery, ordering and marketplace apps for businesses: customer app, rider app and admin panel. These projects usually land between ₹1.5 and 3 lakh. What's your business, and which city?

S2 "Franchise?" or "Details?"

एक गोष्ट clear करतो: ही franchise नाही. App, brand आणि business पूर्णपणे तुमचा. आम्ही technology बनवतो, आणि projects ₹1.5 लाखांपासून सुरू होतात. Business आधीपासून चालू असेल किंवा गुंतवणुकीची तयारी असेल, तर नक्की बोलूया.

To be clear, this isn't a franchise. The app, brand and business are fully yours. We build the technology, and projects start at ₹1.5 lakh. If your business is already running or you have capital ready, let's talk.

S3 Outbound: restaurant or sweet shop owner

नमस्कार __ सर, __ ला Zomato वर खूप छान reviews आहेत. एक प्रश्न: दर महिन्याला commission मध्ये साधारण किती जातात? आम्ही restaurants साठी त्यांचं स्वतःचं delivery app बनवतो, commission शिवाय. तुमच्या नावाने 2 मिनिटांचा demo बनवून पाठवू का?

Hi __, __ has great reviews on Zomato. Quick question: roughly how much goes to commission each month? We build restaurants their own delivery app, with no commission. Shall I send you a 2-minute demo with your brand on it?

S4 Outbound: distributor or wholesaler

नमस्कार __ जी, तुमचे retailers orders WhatsApp किंवा फोनवर देतात का? आम्ही distributors साठी order app बनवतो: retailers स्वतः order देतात, credit limit आणि schemes आपोआप लागू होतात, आणि रोजचा sales report तुमच्या फोनवर येतो. 15 मिनिटं बोलूया का?

Hi __, do your retailers order by WhatsApp or phone? We build ordering apps for distributors: retailers order themselves, credit limits and schemes apply automatically, and the daily sales report lands on your phone. Can we talk for 15 minutes?

S5 A founder Tarun Udyojak featured

नमस्कार __, तरुण उद्योजक वर तुमची story share केली होती, आणि लोकांना ती खूप आवडली. आता मी Outgrid Labs मधून businesses साठी apps आणि automation बनवतो. तुमच्या business मध्ये orders, billing किंवा customers सांभाळताना सगळ्यात जास्त वेळ कुठे जातो? 15 मिनिटं बोललो तर एक-दोन ideas नक्की देईन.

Hi __, we shared your story on Tarun Udyojak and people loved it. I now build apps and automation for businesses through Outgrid Labs. Where does the most time go in your business: orders, billing or customers? Give me 15 minutes and I'll share a couple of ideas.

S6 Sending the branded demo

__ जी, हा तुमच्या नावाने बनवलेला demo बघा (2 मिनिटं). उद्या 15 मिनिटांच्या call वर पूर्ण plan, timeline आणि खर्च दाखवतो. संध्याकाळी 7 की 8, कोणती वेळ चालेल?

__, here's a demo built with your brand (2 minutes). Tomorrow I'll walk you through the full plan, timeline and cost in 15 minutes. 7 pm or 8 pm?

S7 Asking for the advance

काम सुरू करण्यासाठी 40% advance, म्हणजे ₹__. मी महिन्याला फक्त 2 projects घेतो आणि पुढचा slot __ पासून आहे. Payment आलं की आजच agreement आणि kickoff ची तारीख पाठवतो.

To start, we take a 40% advance: ₹__. I take only 2 projects a month, and the next slot starts on __. Once the payment is in, I'll send the agreement and kickoff date today.

S8 They want to start later: slot booking

जानेवारीत सुरू करायचं असेल तर ₹25,000 देऊन slot आत्ताच book करू शकता. ही रक्कम पूर्ण advance मधून वजा होते, आणि आजची किंमत lock होते.

If you'd rather start in January, you can book the slot now with ₹25,000. It's adjusted against the advance, and today's price is locked.

S9 Follow-ups after the proposal

Day 2: __ जी, proposal बद्दल काही प्रश्न आहेत का? या आठवड्यात सुरू केलं तर __ पर्यंत launch होऊ शकतं.

Day 5: __ पासूनचा slot अजून मोकळा आहे. Hold करून ठेवू का?

Day 10: सध्या योग्य वेळ नसेल हे समजू शकतो. मी हा विषय इथे थांबवतो. तयार असाल तेव्हा फक्त START लिहा.

Day 2: any questions on the proposal? Start this week and you launch by __. · Day 5: the slot from __ is still open, shall I hold it? · Day 10: I understand if the timing isn't right. I'll close this here; just type START when you're ready.

09 · CONTENT DIRECTION

From "start a business" to "make more money in yours".

Your page already reaches founders. Now point it at owners who have money, and let your building skill be the proof. Three tracks, with the mix shifting toward money and proof.

Track	Share	Purpose	Formats that work
A. Owner money	60%	Attract owners with revenue and a leak	Commission maths, "5 losses of taking orders on WhatsApp", payback breakdowns, street interviews asking owners what aggregators cost them
B. Proof and build in public	25%	Kill the "have you built this?" doubt before the call	Screen walkthroughs of admin and rider apps, "I built a demo for a Pune restaurant in 4 hours", dashboards from your own platforms, client testimonials once you have them
C. Filtered opportunity	15%	Keep founder reach, but filtered	The clone videos you already make, now with "not a franchise" and "from ₹1.5 lakh" on screen

Hook bank (Marathi)

Track	Hook
A	Zomato ला महिन्याला किती देताय? हा हिशोब एकदा करा. (How much do you pay Zomato every month? Do this maths once.)
A	Distributor आहात आणि orders अजून WhatsApp वर? हे 5 नुकसान रोज होतंय. (A distributor still taking orders on WhatsApp? You lose these 5 things every day.)
A	Blinkit तुमच्या गावात येण्याआधी supermarket owners ने हे करा. (Supermarket owners: do this before Blinkit reaches your town.)
A	₹1.5 लाखाचं app 5 महिन्यात पैसे कसे परत करतं? (How does a ₹1.5 lakh app pay for itself in 5 months?)
A	हॉटेल मालकांना विचारलं: Zomato किती commission घेतं? (We asked hotel owners: how much commission does Zomato take?) *Street interview.*
B	एका restaurant साठी 4 तासांत त्यांच्या नावाचं app बनवलं. बघा. (I built a restaurant an app in its own name in 4 hours. Watch.)
B	Delivery app च्या आत काय असतं? Admin panel ची 60 सेकंदांत tour. (What's inside a delivery app? A 60-second tour of the admin panel.)
B	मी Europe मधल्या कंपनीसाठी booking platform बनवला. त्यातून शिकलेल्या 3 गोष्टी. (I built a booking platform for a European company. 3 things I learned.)
C	तुमच्या शहरात delivery app सुरू करायचंय? आधी हे 3 प्रश्न. ही franchise नाही. (Want to start a delivery app in your town? Answer these 3 questions first. This isn't a franchise.)
C	₹50,000 मध्ये app मिळतं का? खरं उत्तर. (Can you get an app for ₹50,000? The honest answer.)

Weekly rhythm

- **Mon:** A, commission or payback maths
- **Tue:** B, screen walkthrough
- **Wed:** A, segment pain (distributors, supermarkets)
- **Thu:** B, demo build or behind the scenes
- **Fri:** C, filtered opportunity
- **Daily stories:** polls ("तुमच्या business मध्ये orders कसे येतात?", "How do orders come into your business?"), DM replies with names hidden, build clips
- **Monthly:** one live session, "Ask me about your app idea"

Lead magnet you can build in a day

A **commission calculator** web page: the owner enters monthly orders, average order value and commission %, and sees what they lose a year and the app's payback period.

The CTA on reels is "HISHOB लिहा" (type HISHOB), which sends the link. Every lead arrives with their numbers already filled in, so you know they're qualified before you reply.

Website changes that support the content

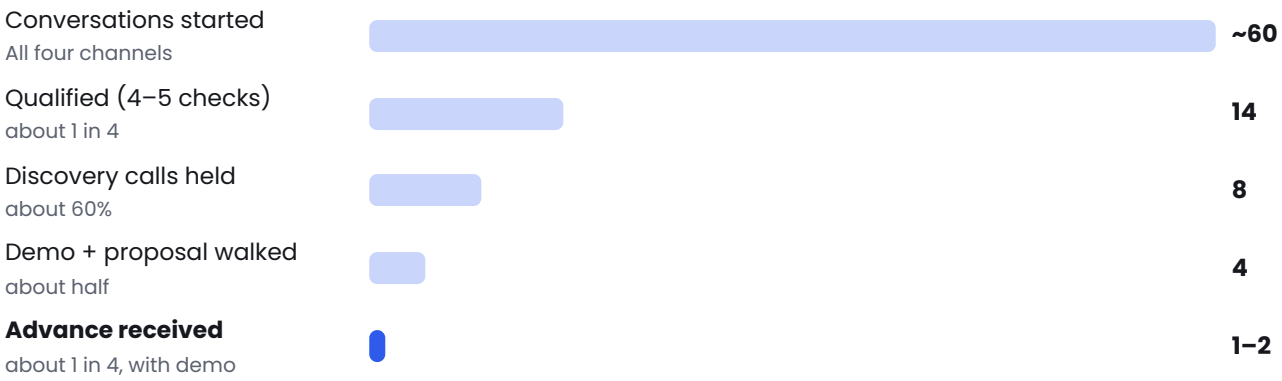

- Split pricing: "Apps from ₹1.5 lakh · Websites from ₹40,000".
- Re-label the work page by product type, with app and dashboard screenshots.
- Add two landing pages: "Own delivery app for restaurants" and "Order app for distributors", each with the calculator and a WhatsApp CTA.
- Leave space for testimonials, and fill it with the first client in launch week.

Measure every reel by the number of qualified leads it produces (4–5 checks), not by views. After two weeks, double the track that produces the most.

10 · NUMBERS AND THE 20-DAY SPRINT

Four proposals walked through is the real target.

Planning assumptions for one ₹1L+ close. Update them with real numbers every Sunday.

Scenario	What closes	Contract value	In the bank by 1 Dec
Minimum	1 Launch tier	₹1.5L	₹60k advance
Target	1 Growth tier	₹2.5L	₹1L advance
Stretch	1 Growth + 1 slot booking	₹4L+	₹1.25L

Sprint plan

Window	Do	Exit target
Days 1–3 12–14 Nov	Fix the website pricing and work labels. Prepare the white-label base for the demo. Write the proposal and agreement templates. Book calls with the spare parts, pet care and agri leads. List 30 featured founders and send the first 10 S5 messages.	3 calls booked; demo base ready
Days 4–8 15–19 Nov	Discovery calls with the 3 serious leads. Branded demos for the qualified ones. 10 outbound messages a day. Content tracks A and B live.	3 demos sent; 2 proposals walked through
Days 9–14 20–25 Nov	Walkthrough calls and advance asks. Second wave of calls from outbound and founders. Sign 5 referral partners. Launch the commission calculator.	4 proposals walked through
Days 15–20 26 Nov – 1 Dec	Close: day 2 and day 5 follow-ups, slot booking for "later" deals, agreement and invoice the same day, kickoff within 24 hours.	**Advance in the bank**

Lead tracker columns

Name · business · town · channel · checks passed (0–5) · stage (qualified, call, demo, proposal, won, lost) · deal value · next step · next date. Review it every night; any deal without a next date is a deal you're losing.
